

Partnership Leadership

Research Ministry Network

Mission

To increase the participation of underserved communities of color in comparative effectiveness research and patient centered outcomes research through the design, development and implementation, reporting and dissemination of research.

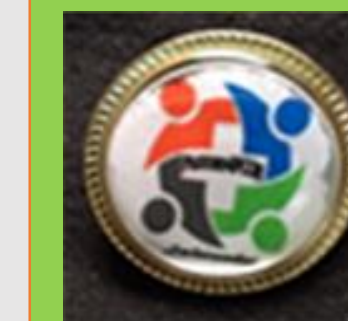

Building a Collaborative Partnership Infrastructure

Ambassador Outcomes

Lessons Learned

I liked understanding what part I am to play as a partner

I liked pledging to help my church community with health issues

I like the Belmont Report... the importance of informed consent

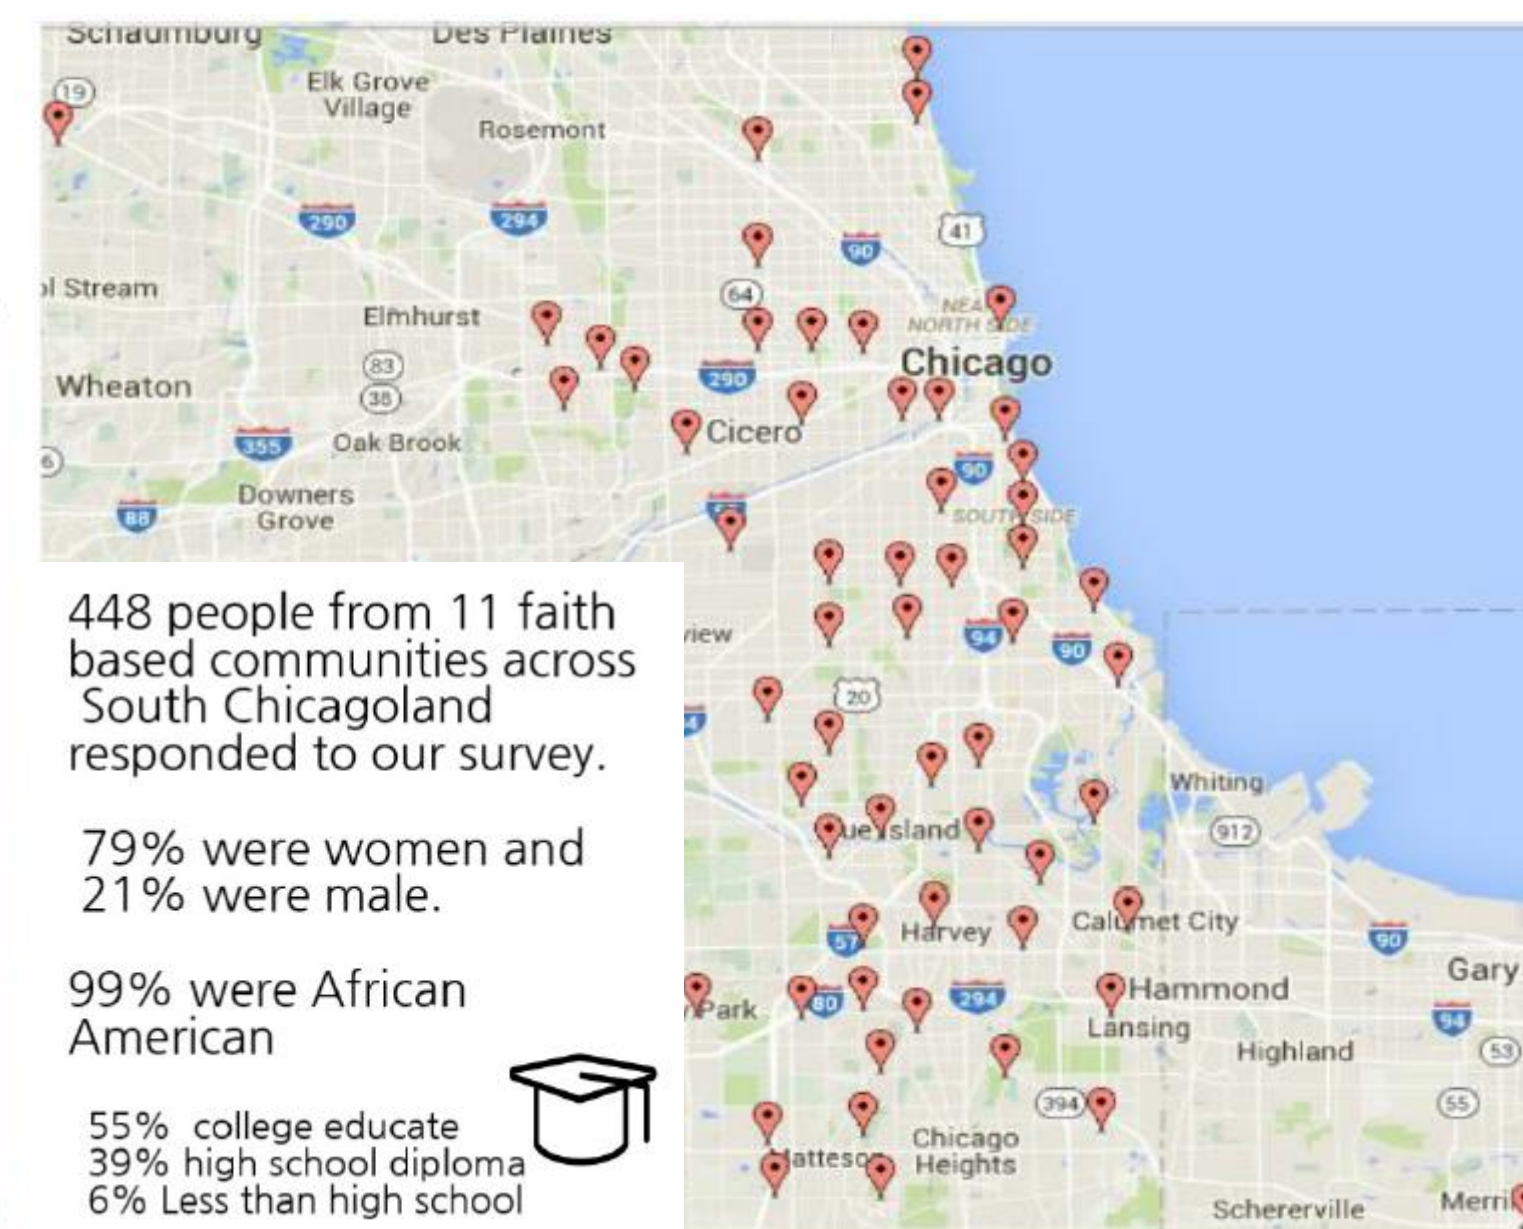

Building the Capacity to Engage

Research Engagement Road Map
