Els Houtsmuller, PhD

- Nothing to disclose.

As of October 2018, PCORI has awarded

\$88 million

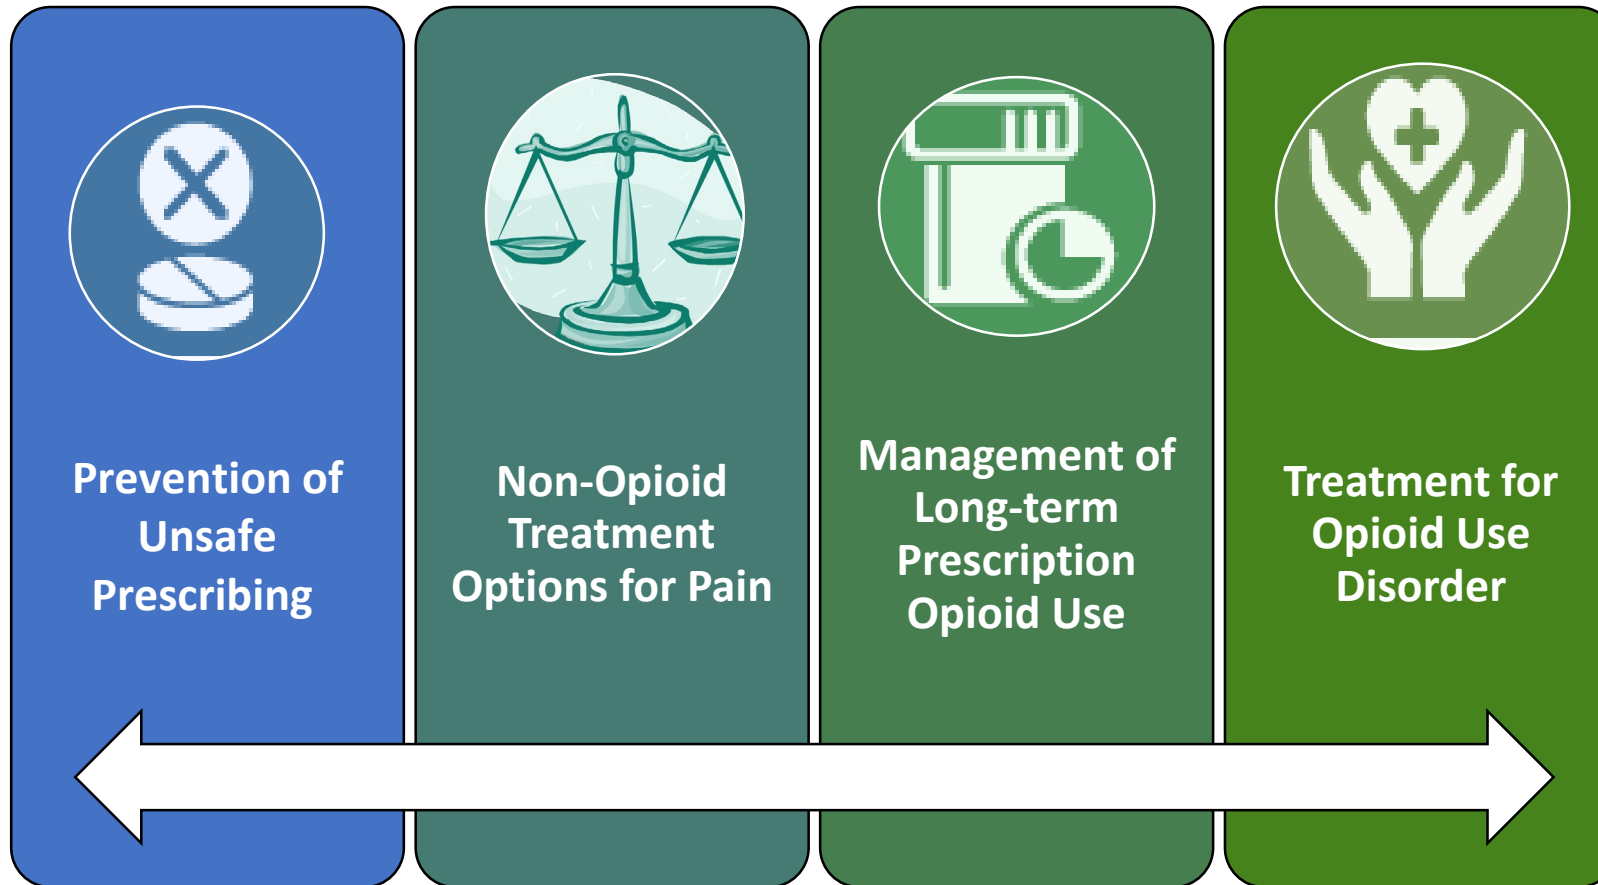

to fund 16 CER studies

on Opioid Use involving

170,000 patients*

**Includes target numbers of active participants and records from health databases.*

Addressing the Opioid Epidemic: Spanning the Care Continuum

PCORI Targeted Funding Announcements Opioids

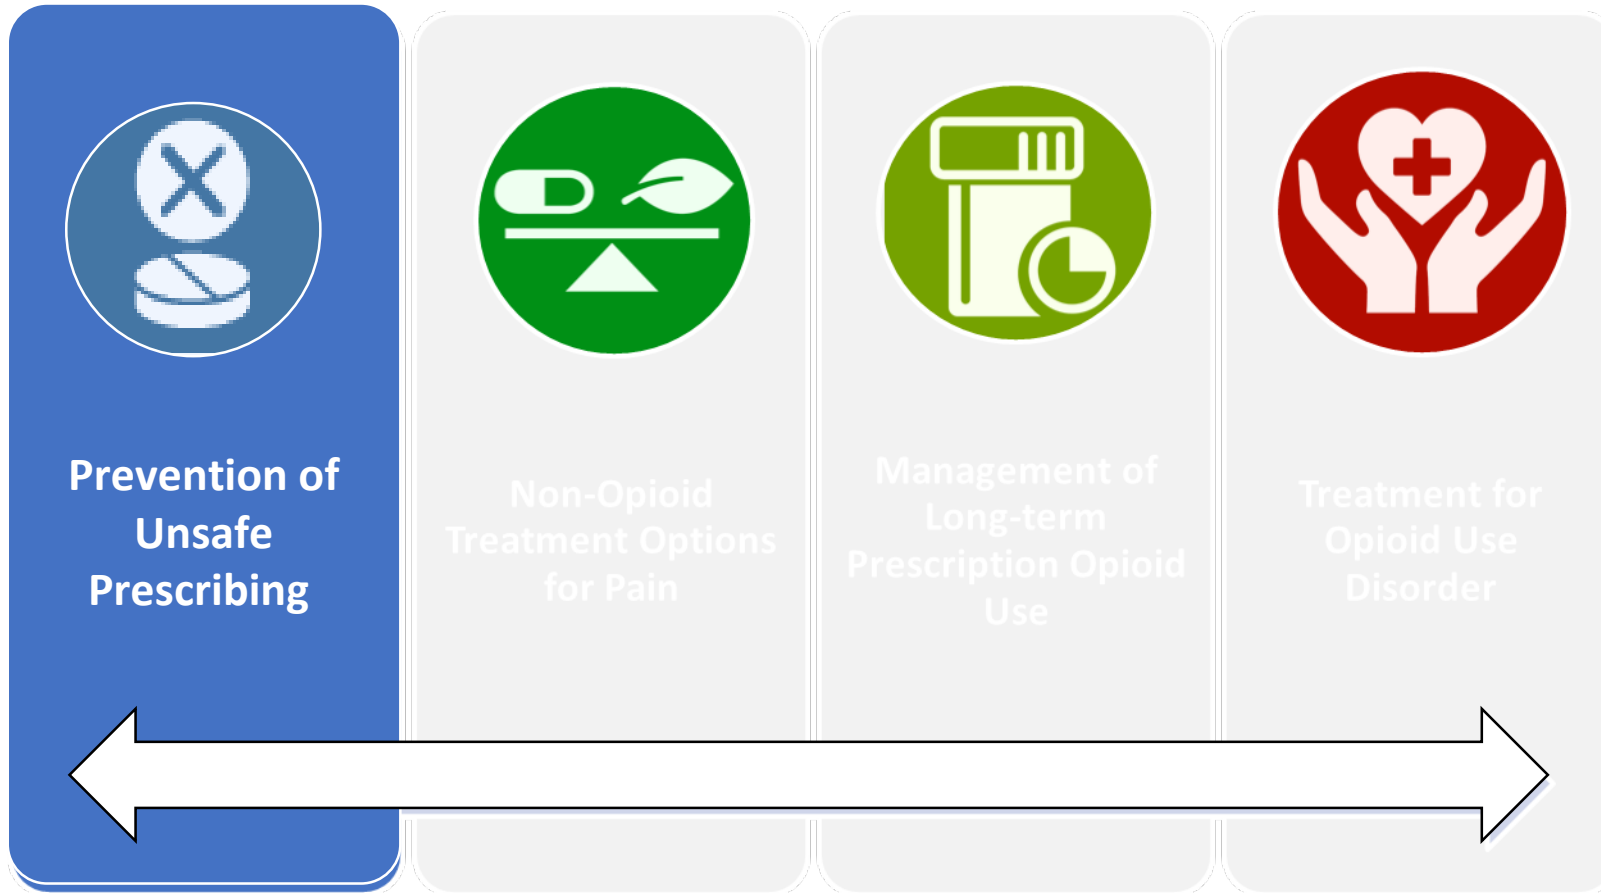

2016 Strategies to Prevent Unsafe Opioid Prescribing in Primary Care among Patients with Acute or Chronic Noncancer Pain \$30M

2016 Clinical Strategies for Managing and Reducing Long-Term Opioid Use for Chronic Pain \$40M

2017 Medication-Assisted Treatment (MAT) Delivery for Pregnant Women with Substance Use Disorders Involving Prescription Opioids and/or Heroin \$16M

2018 Psychosocial Interventions with Office-Based Opioid Treatment for Opioid Use Disorder \$25M

Addressing the Opioid Epidemic: Spanning the Care Continuum - 2

Prevention of unsafe prescribing

Comparative Effectiveness of Probabilistic versus Patient Narrative: Enhanced Risk Communication for Pain Management Following Acute Care PI Meisel

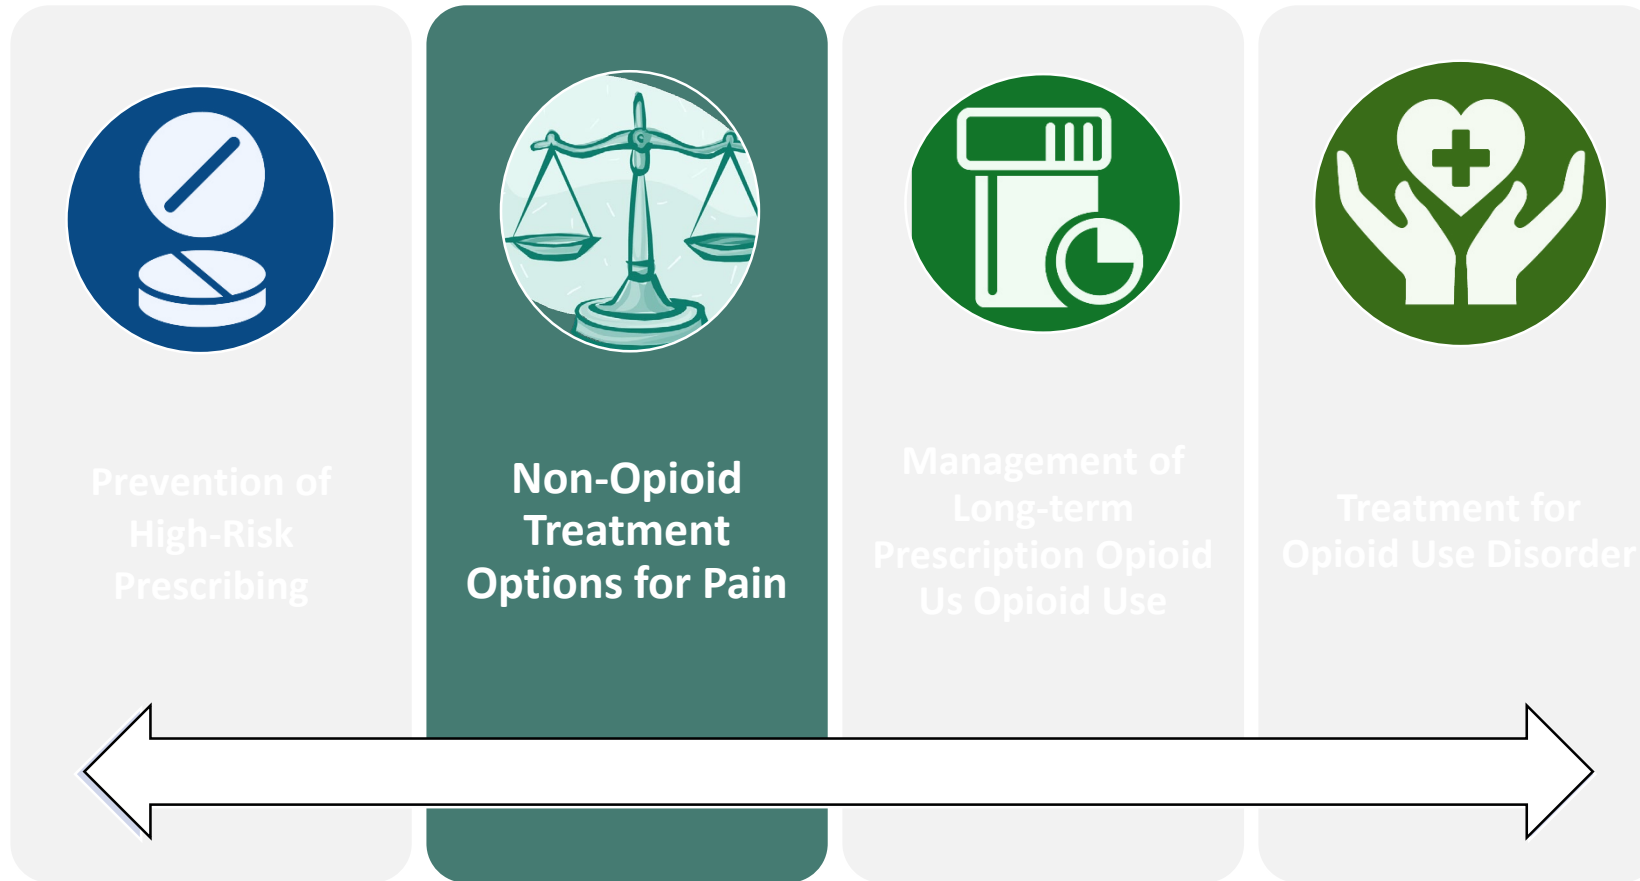

Integrating the Patient Voice into a Comparative Effectiveness Trial of Communication Strategies in the Management of Chronic Pain PI Spiegel

Naturalistic Experiment Evaluating the Impact of Medicaid Treatment Reimbursement Changes on Opioid Prescribing and Patient Outcomes Among Patients with Low Back Pain PI DeBar

Provider-Targeted Behavioral Interventions to Prevent Unsafe Opioid Prescribing for Acute Non-Cancer Pain in Primary Care PI Kraemer

Strategies to Prevent Unsafe Opioid Prescribing in Primary Care among Patients with Acute or Chronic Non-Cancer Pain PI Franklin

Addressing the Opioid Epidemic: Spanning the Care Continuum - 3

Non-opioid Treatment Options for Pain

Comparative Effectiveness of Pain-Cognitive Behavioral Therapy and Chronic Pain Self-Management Within the Context of Opioid Reduction

PI Darnall

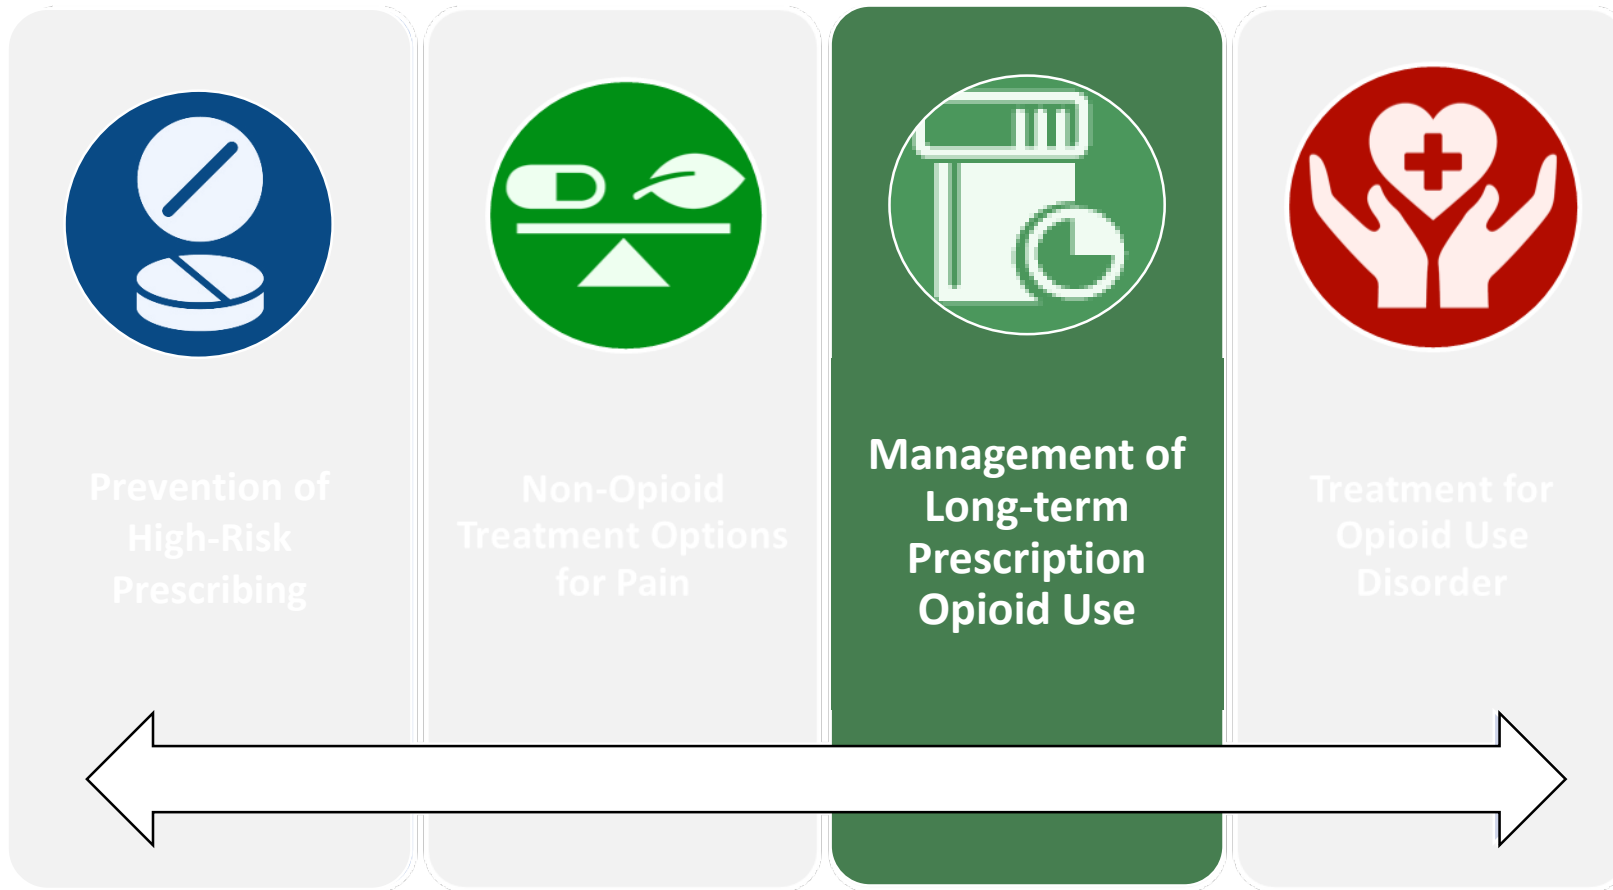

Treating Chronic Pain using Approaches Adapted for Patients with Limited Reading Skills

PI Thorn

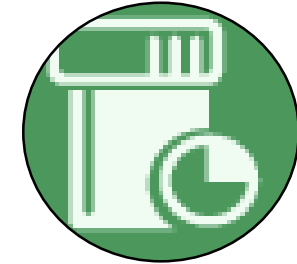

Comparative Effectiveness RCT of Mindfulness Meditation versus Cognitive Behavioral Therapy for Opioid-Treated Chronic Low Back Pain

PI Zgierska

Addressing the Opioid Epidemic: Spanning the Care Continuum – 4

Management of Long Term Prescription Opioid use

Evaluation of a Health Plan Initiative to Mitigate Chronic Opioid Therapy Risks

PI von Korff

Prescription Opioid Management in Chronic Pain Patients:
A Patient-Centered Activation Intervention

PI Campbell

Comparative Effectiveness of Patient-Centered Strategies to Improve Pain
Management and Opioid Safety for Veterans

PI Krebs

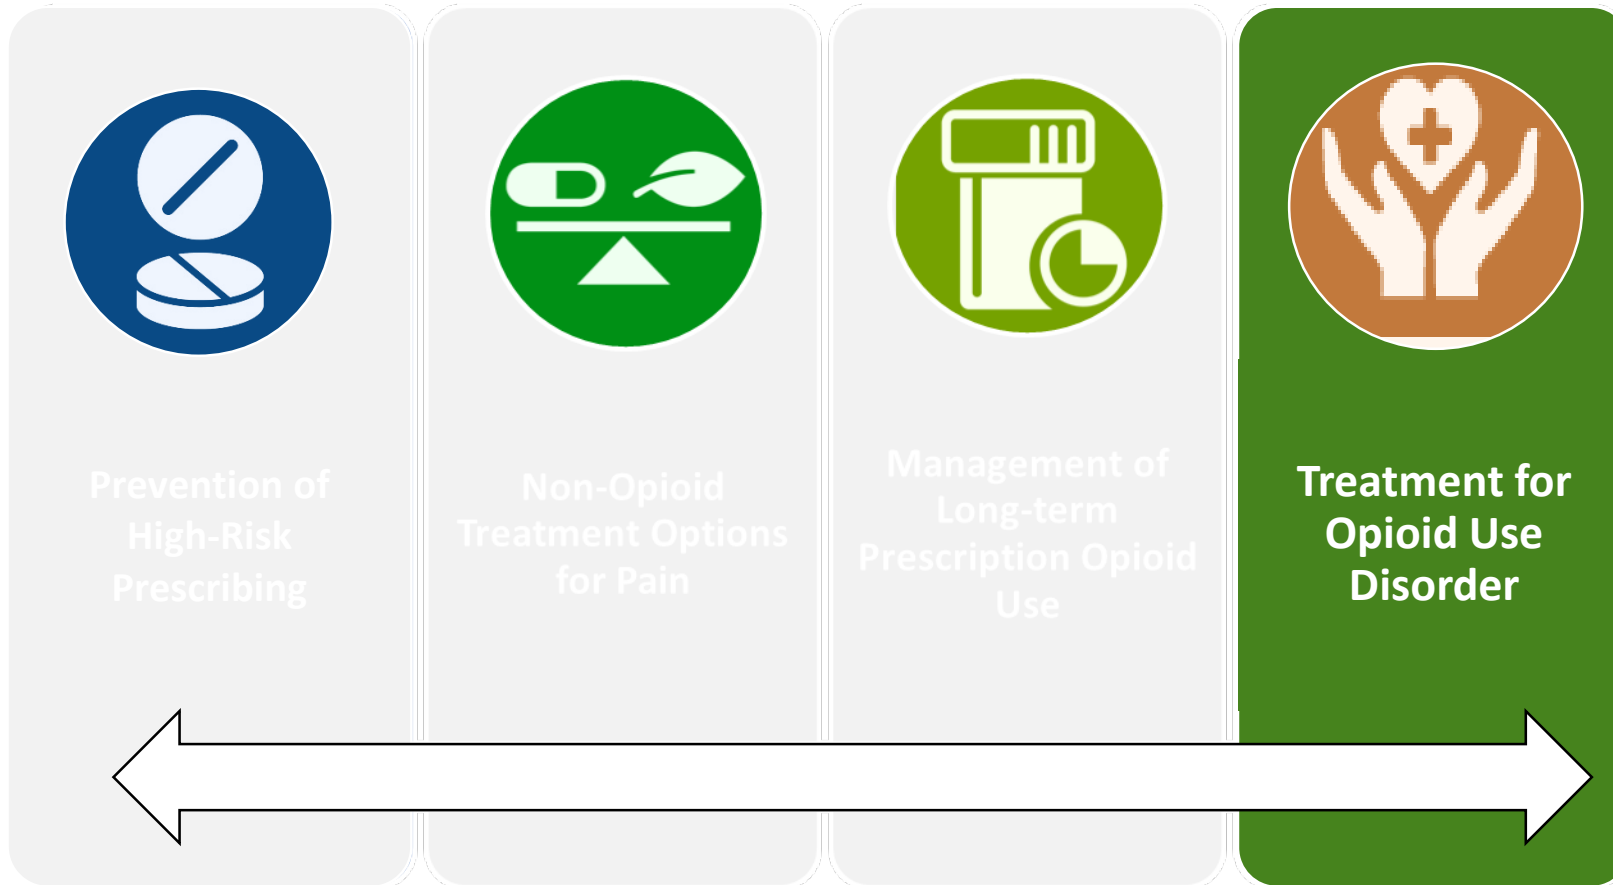

Integrated Health Services to Reduce Opioid Use While Managing Chronic Pain

PI McCormack

Comparative Effectiveness of Pain-Cognitive Behavioral Therapy and Chronic
Pain Self-Management Within the Context of Opioid Reduction

PI Darnall

Addressing the Opioid Epidemic: Spanning the Care Continuum – 5

Treatment for Opioid Use Disorder

Improving Outcomes of Opioid Addicted Prisoners with Extended Release
Injectable Naltrexone Before Reentry

PI Woody

A Simple Large Trial of Patient-Centered Care for Opioid Use Disorders in Federally
Qualified Healthcare Centers and Specialty Care Settings

PI Gastfriend

Comparative Effectiveness of Clinical Decision-Making Processes Required by Public
Health Systems

PI Mark

Moms in Recovery (MORE): Defining Optimal Care for Pregnant Women and Infants

PI Lord/
Goodman

PATHways: Comparative Effectiveness Study of Peripartum Opioid Use Disorder in
Rural Kentucky

PI Critchfield
