<td>Donna Evon</td>
<td>Principal Investigator</td>
<td>UNC Chapel Hill</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Key Personnel Name</th>
<th>Institution:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Michael Fried</td>
<td>UNC Chapel Hill</td>
</tr>
<tr>
<td>Carol Golin</td>
<td>UNC Chapel Hill</td>
</tr>
<tr>
<td>Kenneth Bergquist</td>
<td>UNC Chapel Hill</td>
</tr>
<tr>
<td>Paul Stewart</td>
<td>UNC Chapel Hill</td>
</tr>
</tbody>
</table>

4. Does Recipient have a Conflicts of Interest Policy or Guidelines that meets the requirements of the federal financial conflicts of interest regulations of the US Public Health Service (http://grants.nih.gov/grants/policy/COI/) that it applies to PCORI-funded research?

☑ YES          □ NO (See Question 5)

5. If you checked "No," Recipient must provide information describing how Recipient will ensure that the PCORI-Funded Research Project is not influenced by conflicts of interest.

Ancillary information/COI Disclosure Research Project Form Revised July 24, 2017
6. Report the existence of any financial or personal interests or associations of Recipient, Principal Investigator, and Key Personnel related to the PCORI-Funded Research Project under this Contract that constitute a conflict of interest. Attach the management plan that addresses identified conflicts of interest.

Print "None" if Recipient, Principal Investigator, and Key Personnel have no financial or personal interests or associations that constitute a conflict of interest. (Attach additional documents, if needed).

Michael Fried has disclosed a consulting relationship with AbbVie, Inc. Management Plan: key elements include disclosure in any informed consent, publications or presentations arising from this project.

7. Please list any direct or indirect links to industry (such as pharmaceutical, medical device, health insurance, and other healthcare-related companies) that Recipient has related to the PCORI-Funded Research Project.

Print "None" if there are no direct or indirect links to industry as described above. There is no need to include disclosures here that are reported under Question 6 above. (Attach additional documents, if needed).

The University of North Carolina at Chapel Hill has received a small donation from Gilead Sciences, Inc. within the past twelve months for educational purposes. Additionally, the University currently has clinical trials related to Hepatitis C and the HCV Target consortium with industry sponsors including Gileade, Abbvie and Merck Sharp and Dohme.

Ancillary information/COI Disclosure Research Project Form Revised July 24, 2017
8. If Recipient has any additional material information relating to disclosures or management of conflicts of interest, or other protections against bias pertinent to the PCORI-Funded Research Project, please describe it here. Print “None” if there is no additional material information as described above.

The undersigned certify that the above information is complete and true to the best of their knowledge and understand that this completed form, with these disclosures, will be made publicly available by PCORI in conjunction with the research findings relating to the Research Project. Both the Administrative Official and Principal Investigator must complete and sign one form.
