4. Does Recipient have a Conflicts of Interest Policy or Guidelines that meets the requirements of the federal financial conflicts of interest regulations of the US Public Health Service (<http://grants.nih.gov/grants/policy/coi/>) that it applies to PCORI-funded research?

YES

NO (See Question 5)

5. If you checked “No,” Recipient must provide information describing how Recipient will ensure that the PCORI-Funded Research Project is not influenced by conflicts of interest.
- 
- 

6. Report the existence of any financial or personal interests or associations of Recipient, Principal Investigator, and Key Personnel related to the PCORI-Funded Research Project under this Contract that constitute a conflict of interest. Attach the management plan that addresses identified conflicts of interest.

Nick Hanania, MD, MS, is co-principal investigator of this study and medical director of the adult Environmental Health Clinic. He serves as a consultant or an advisor for GSK, Astra Zeneca, Sanofi, Boehringer Ingelheim and Sunovion. His institution (Baylor College of Medicine) receives grant support on his behalf from GSK, Boehringer Ingelheim, and Astra Zeneca. None of Dr. Hanania’s external funding is directly linked to the grant or conduct of this study. In addition, Dr. Hanania will disclose all support he has received or may receive that may constitute potential conflict of interest publicly in any publication or presentation that may result from the study.

7. Please list any direct or indirect links to industry (such as pharmaceutical, medical device, health insurance, and other healthcare-related companies) that Recipient has related to the PCORI-Funded Research Project.

Print “None” if there are no direct or indirect links to industry as described above. There is no need to include disclosures here that are reported under Question 6 above. (Attach additional documents, if needed).

See #6 above.
