10
PROJECTS*

\$12.3
MILLION
AWARDED

**Including four research projects and six projects that support engagement in research. As of January 2018.*

AWARDEE AND COMMUNITY PARTNERS INCLUDE

- Arizona Community Health Workers Association
- Arizona Department of Health Services
- Arizona State University
- CysticLife
- Mayo Clinic Arizona
- Northern Arizona University
- Phoenix Children's Hospital
- Pima County Cervical Cancer Prevention Partnership
- University Family Care
- University of Arizona

STUDY SPOTLIGHT: SLEEP APNEA

Peer-Driven Interventions for Sleep Apnea

This project focuses on people with sleep apnea who use a continuous positive airway pressure (CPAP) machine at night. It is examining whether assigning a peer coach to new CPAP users increases CPAP usage and improves health outcomes compared with regular care, advice, and instruction delivered by health professionals. This project is based at the University of Arizona.

CONDITIONS STUDIED INCLUDE

Chronic Pains

Cystic Fibrosis

Mental Illness

Migraine

Sleep Apnea

PROJECTS FUNDED IN ARIZONA ARE:

RESEARCH PROJECTS

Comparing Treatment Alternatives for Patients with Migraine	Mayo Clinic Arizona	\$7.7 M
Peer-Driven Interventions for Sleep Apnea	University of Arizona	\$2.1 M
Connecting Healthy Women	University of Arizona	\$1.2 M
Using Research to Learn How Patients Prefer to Get Mental Health Care	University of Arizona	\$610,000

ENGAGEMENT IN RESEARCH PROJECTS

Care Coordination for Children's Health Care	Arizona State University	\$250,000
Building a Community for Patient-Centered Outcomes Research on Sleep	University of Arizona	\$250,000
Establishing a Patient-Centered Research Community for Cystic Fibrosis (Tiers I, II, and III)	CysticLife	\$87,000
Involving Native Stakeholders in Pain Research	Northern Arizona University	\$50,000
