MILLION
AWARDED

**Including 10 research projects and 13 awards that support engagement in research. As of February 2019.*

AWARDEE AND COMMUNITY PARTNERS INCLUDE

- Asthma and Allergy Foundation of America, St. Louis Chapter
- Boys and Girls Clubs of Greater St. Louis
- Faith Works Connecting for a Healthy Community
- Ferguson-Florissant School District
- Heartland Primary Care
- Mercy Children's Hospital St. Louis
- St. Luke's Hospital of Kansas City
- University of Missouri, Kansas City
- Washington University in St. Louis
- Washington University School of Medicine in St. Louis

STUDY SPOTLIGHT: DEPRESSION

Comparing Treatments for Older Adults with Major Depression

More than half of older adults who are diagnosed with major depression don't get better even after trying two or more antidepressants. This study is comparing how well different types and combinations of medicines work for adults aged 60 and older who have treatment-resistant depression. The study is based at Washington University School of Medicine.

CONDITIONS STUDIED INCLUDE

Asthma

Cardiovascular
Disease

Depression

Rare Diseases

Reproductive and
Perinatal Health

PROJECTS FUNDED IN MISSOURI ARE:

RESEARCH PROJECTS

Comparing Treatments for Older Adults Who Have Major Depression That Does Not Respond to First-Line Antidepressant Medicines	Washington University School of Medicine in St. Louis	\$13 M
Posterior Fossa Decompression with or without Duraplasty for Chiari Type 1 Malformation with Syringomyelia	Washington University School of Medicine in St. Louis	\$2.8 M
Comparing Two Ways to Manage Asthma in African-American Children	Washington University in St. Louis	\$2.3 M
Improving Provider-Patient Communication to Reduce Antibiotic Misuse	Mercy Children's Hospital St. Louis	\$2.1 M
Implementation of Patient-Centered Contraceptive Provision in Community Settings	Washington University School of Medicine in St. Louis	\$1.8 M
Patient-Centered Outcomes Recovery from Treating Peripheral Arterial Disease: Investigating Trajectories	St. Luke's Hospital of Kansas City	\$1.8 M
Developing and Testing a Personalized, Evidence-Based, Shared Decision Making Tool for Stent Selection in Percutaneous Coronary Intervention	University of Missouri, Kansas City	\$1.7 M
Developing and Validating Quantitative Measures to Assess Community Engagement in Research	Washington University School of Medicine in St. Louis	\$1 M
Learning What Matters Most to Patients with Peripheral Artery Disease	St. Luke's Hospital of Kansas City	\$640,000

ENGAGEMENT IN RESEARCH PROJECTS

Incorporating Genetics into Patient-Centered Outcomes Research: An Engagement Model for the Autism Research Community	Mercy Children's Hospital St. Louis	\$250,000
Community Collaboration toward Reducing Health Disparities in St. Louis-Area Youth	University of Missouri, St. Louis	\$250,000
Training Journalists in Evidence-Based Medicine, Comparative Effectiveness Research, and Health Data	Center For Excellence In Health Care Journalism	\$150,000
Relieving Pain in Kansas City (Tiers I, II, and III)	Center for Practical Bioethics	\$90,000
Engaging Communities in Infectious Diseases Research and Intervention Development (Tiers I, II, and III)	Mercy Children's Hospital St. Louis	\$90,000
Traumatic Brain Injury Treatments for Veterans	A.T. Still University of Health Sciences	\$50,000
Incorporating Genetic Data in Patient-Centered Outcomes Research Studies	Mercy Children's Hospital St. Louis	\$50,000
Finding Effective Community Solutions to Increase Colon Cancer Screening Among African Americans (Tiers I and II)	Faith Works Connecting for a Healthy Community	\$40,000
